We hope that you will find many things of interest in our catalog and that the enclosed Order Blank and Return Envelope will aid you in ordering. Please do not hesitate to call upon us for additional information or service.

SHIPPING

All shipments will be made via Railway Express collect unless otherwise requested. By careful packing, we have shipped our plants successfully to all parts of the United States and many foreign countries. However, we are not responsible for the safe arrival of plants. Once the plants are accepted by the carriers, they are responsible for the shipment. If there is any indication of damage, it is essential that you file an immediate claim with the express company and get their inspection certificate. The express company inspector must see the plants immediately to have a claim considered. We will gladly replace any damaged plants, but the claim must be filed to permit us to be reimbursed by the express company.

CONDITIONS OF SALE

SUBJECT TO PRIOR SALE: Orders are filled in the order of receipt. If possible, list an alternate choice to avoid delay.

CREDIT: Until credit is established, all purchases are CASH or C.O.D.

SALES TAX: California customers, please add 3% State Sales Tax.

QUANTITY DISCOUNTS

On Quantity Purchases, we are offering the following discounts:

\$50.00 to \$250.00.....	10%
\$250.00 to \$1000.00.....	20%
over \$1000.00.....	30%

POLICY

It is our policy to give all the information that we have on anything that we sell.

We are sure that you will be well pleased with the plants that you will receive. Only strong, clean, sturdy stock is listed in our Catalog.

E.W. McLELLAN Co.

San Francisco, 25, California

ORCHID GROWERS - EXPORTERS, IMPORTERS, HYBRIDIZERS

Orchid enthusiasts now realize that the Hobby that belonged in the past solely to Kings can now be enjoyed by all of us. The "magic" has been removed from orchid growing and with the advent of D.D.T. and the construction of the modern home, which makes it an ideal conservatory for orchids, people in all parts of the World have found orchids one of the easiest plants to cultivate in the home, conservatory, or glasshouse.

We have attempted to gather together the "finest breeding parents on Earth" and to breed them with a modern scientific approach to obtain the greatest improvements in vigor, color, texture, size, shape, production, and period of bloom. With the aid of a complete modern hybridizing laboratory, trained technicians, our mass production, and vast commercial collection of orchids, we feel that we are able to offer the better things to the greater satisfaction of the orchid enthusiast.

Probably too often, San Francisco's cool, foggy summers and mild winters have been mentioned, but orchids do thrive in our Orchid Range in this "Air-Conditioned" San Francisco, and grow sturdy, plump, and vigorous.

We feel certain that you will be well pleased with the fine plants that we will ship you—the crosses, the vigor, the packing, and the price.

A SECTION OF OUR FLASK HOUSE

MCLELLAN FLASKS

These are offered for the professional or amateur who is interested in starting seedlings from the flask. The price is based on the number of seedlings in the large 1000 c.c. flask, and the minimum number is indicated below.

We have listed only a small portion of our available flasks. Anyone interested in obtaining flasks is invited to send for our complete Flask List.

NOTE: If the agar is shaken up in shipment and mixed with the plants, the seedlings should be transplanted immediately.

Cross No.	Parent Description		Price
367	C. PROSPECTOR var. HELEN BUSS x C. TITYUS	colored, late Winter.....	
		100 or more seedlings	\$25.00

		200 or more seedlings	50.00

MCLELLAN COMMUNITIES

Our 3" community pots are planted with 20 or more seedlings for the large commercial grower and 10 or more seedlings to the 3" pot for those who want less than 20 of each cross.

These plants, the results of the "finest parents on earth", are ready to be shifted to thumb pots (1½") and are fine, vigorous, sturdy stock. The accurate description of the flower of both parents used in the cross will help you to make your selection.

Cross No.	Parent Description	Price
20	C. NATALIE DEKENS—Petals 5¾" x 1¾", X labellum white with very pale yellow throat, April.	
	C. ESTELLE alba—Petals 7½" x 2¾", white, labellum white with yellow throat, March.	
	Purpose: An excellent textured clear white with yellow throat, to flower winter through spring. This is expected to be a good pro- ducer with the vigorous growth and excellent keeping qualities of C. Estelle alba.	
	3" Communities—10 plants	\$ 7.50
	—20 plants	12.50

Cross No.	Parent Description	Price
-----------	--------------------	-------

25 C. PAVLOVA, var. BALLERINA — Petals
X 6¾" x 2", white, labellum
lemon yellow—May.

C. ESTELLE alba—Petals 7½" x 2¾", white,
labellum white with yellow
throat—March.

Purpose: A well-shaped, excellent textured,
large white with yellow throat, blooming
early to late spring. Both parents are good
producers and vigorous growers.

3" Communities—10 plants \$ 7.50
—20 plants 12.50

32 C. LADY JOAN—Petals 6¾" x 2½", white,
X labellum white, lemon yellow
throat—May.

C. ESTELLE alba—Petals 7½" x 2¾", white,
with yellow throat—March.

Purpose: To produce a white with yellow
throat, of good size and shape, to flower
from early to late spring.

3" Communities—10 plants 7.50
—20 plants 12.50

66 C. ALESSANDRO—Petals 7" x 2½", medium
X lavender, labellum purple
with light bronze throat
—December.

(LC. SARGON x C. DIANA) x (LC. SARGON
x C. VALENCIA)—Petals
7½" x 2¾", rich lavender,
labellum crimson purple
with gold throat—December.

Purpose: To produce an extremely vigor-
ous Christmas season hybrid of good flower
color and shape on satisfactory stem.

3" Communities—10 plants 7.50
—20 plants 12.50

67. C. APALACHEE—Petals 7½" x 2¾", medium lavender, large orange yellow labellum—December.

X
(LC. SARGON x C. DIANA) x (LC. SARGON x C. VALENCIA)—Petals 7½" x 2¾", rich lavender, labellum crimson
purple with gold throat—
November.

LC. ELISSA—Used in Cross No. 70 and others.

(LC. SARGON x C. DIANA) x (LC. SARGON x C. VALENCIA)
Used in Crosses No. 66, No. 67, and others.

Purpose: A vigorous Christmas blooming
hybrid with exceptionally large, dark flowers
with yellow throat, excellent shape and
good production.

3" Communities—10 plants 7.50
—20 plants 12.50

70 C. NEBO—Petals 6½" x 2¾", medium lav-
X ender, labellum magenta
with yellow throat—De-
cember.

LC. ELISSA—Petals 7" x 3", rich rose ma-
genta, labellum crimson
purple—November.

Purpose: An excellent growing, good pro-
ducing, medium to dark flowered hybrid for
the Christmas season.

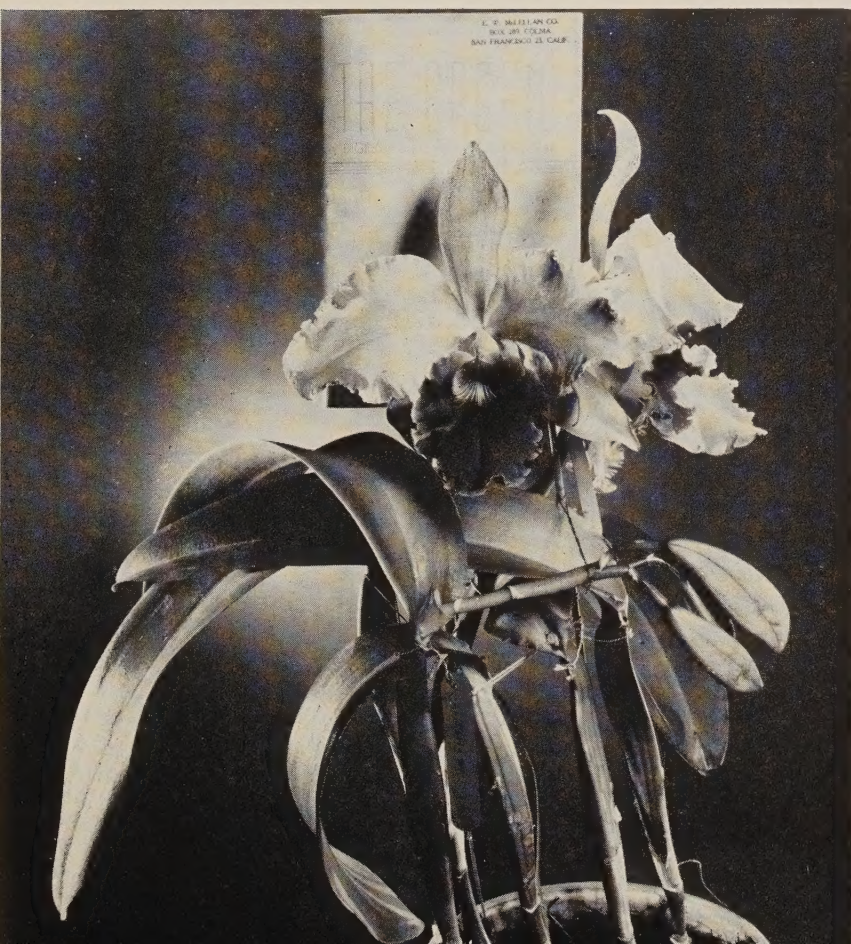

3" Communities—10 plants 7.50
—20 plants 12.50

82 (C. DINAH x LC. MATADOR)—Petals 7" x
X 2½", purple splashed, la-
bellum rich rose purple
—August.

C. GENERAL PULTNEY var. PERRINI—
Petals 7½" x 3½", medium
lavender with rich purple
stripe, labellum crimson
purple with yellow eyes—
January.

Purpose: A large sized early winter flower
with a distinct tendency to have well marked
striped petals of good contrasting colors.

3" Communities—10 plants 5.00
—20 plants 8.50

Cross No.	Parent Description	Price
109	C. ESTELLE alba —Petals 7¾" x 2¾", pure white, labellum white with well marked yellow throat—March. X C. BRUSSELS —Petals 7½" x 2½", pure white, labellum purple with orange throat—April. Purpose: An excellent growing, fine producing white with colored lip for the winter and spring season.	3" Communities—10 plants 7.50 —20plants 12.50
110	C. H.B. TURNER —Petals 8" x 3½", dark lavender, labellum deep magenta with ruffled edge and rich gold throat—December. X C. LEDA splendens —Petals 5½" x 2¾", rich rose with striped yellow throat—November. Purpose: An extraordinary heavy producing Christmas hybrid of good color.	3" Communities—10 plants \$ 5.00 —20 plants 8.50
111	LC. ATLANTIS —Petals 8½" x 3", rose magenta, labellum deep crimson purple—January. X C. ENID var. GIGANTEA —Petals 8" x 3¼", medium lavender, labellum purple, white edging and yellow eyes—April. Purpose: A heavy textured early spring hybrid of increased size and good color.	3" Communities—10 plants 5.00 —20 plants 8.50
115	LC. ATLANTIS —Petals 8" x 3⅞", dark lavender, labellum crimson purple with yellow throat—January. X LC. ATLANTIS —Petals 8¼" x 3⅞", rose magenta with darker center stripe, labellum and throat velvety crimson purple—February. Purpose: To produce a superb strain of dark colored, productive hybrids flowering in late fall and winter from which to select parents for future breeding.	3" Communities—10 plants 7.50 —20 plants 12.50
118	LC. CHEVALIER —Peta's 8" x 3", dark lavender, labellum crimson purple—April. X LC. ATLANTIS —Petals 8¼" x 3⅞", rose magenta, labellum deep crimson purple—January. Purpose: A distinct improvement over present day spring blooming hybrids as to color, shape and growing characteristics.	3" Communities—10 plants 5.00 —20 plants 8.50
126	C. MOSSIAE —Petals 8½" x 3", medium lavender, labellum dark Mossiae type with good yellow throat—April. X C. TRIANAE, var. HAGER —Petals 7¼" x 3", lavender, labellum solid crimson with clear orange throat—December. Purpose: An improved C. Trimos for late winter and early spring.	3" Communities—10 plants 5.00 —20 plants 8.50
131	LC. ATLANTIS —Petals 8" x 3", rose magenta, labellum deep crimson purple—February X C. ENID, var. gigantea —Petals 8" x 3¼", medium lavender, labellum purple, white edging and yellow eyes—April. Purpose: A heavy textured early spring hybrid of increased size and good color.	3" Communities—10 plants 5.00 —20 plants 8.50
LC. ATLANTIS —Used in Crosses Nos. 111, 115, 118, 131, 133, 142, 133, 142, 144, 241, 273, 317.		

133	C. MOSSIAE, var. HAGER —Petals 8½" x 2⅞", medium lavender, labellum ruffled dark Mossiae type—May. X LC. ATLANTIS —Petals 8½" x 3", deep rose magenta, labellum rich crim purple—January. Purpose. A spring blooming, well shaped, better colored than average spring hybrid.	3" Communities—10 plants 5.00 —20 plants 8.50
138	C. MRS. F. KNOLLYS alba —Petals 8" x 3", white, labellum purple with yellow throat—April. X C. BRUSSELS —Petals 9¼" x 2¾", white, labellum purple with white ruffled edge and yellow throat—March. Purpose: A good growing white with colored lip hybrid for the spring season.	3" Communities—10 plants 7.50 —20 plants 12.50
140	C. MOSSIAE —Petals 7½" x 2¾", rose lavender, labellum solid dark purple with white fringed edge, gold throat—April. X C. GENERAL PULTNEY var. PERRINI —Petals 7½" x 3⅞", medium lavender with rich purple stripe, labellum crimson purple with yellow eyes—January. Purpose: A hybrid similar to C. Trimos but darker and more productive with a tendency to have distinct striped petals.	3" Communities—10 plants 5.00 —20 plants 8.50

Cross No.	Parent Description	Price
142	C. MOSSIAE —Petals 7½" x 2⅞", well-shaped heavy textured lavender, labellum ruffled dark Mossiae type—April. X LC. ATLANTIS —Petals 8" x 3", rose lavender, labellum rich crimson purple with gold eyes—October. Purpose: A spring blooming, well-shaped, better colored than average spring hybrid.	3" Communities—10 plants 5.00 —20 plants 8.50
144	LC. BRITANNIA —Petals 7¾" x 3", lilac mauve, labellum rich royal purple with old gold throat veining—April. X LC. ATLANTIS —Petals 8" x 3⅛", medium lavender, labellum rich reddish purple—March. Purpose: A large, well-formed, dark flower with rich dark labellum having gold veining in the throat. We expect vigorous growth with a variable spring and summer flowering season.	3" Communities—10 plants 5.00 —20 plants 8.50
146	LC. MOSSIANA —Petals 8" x 3¼", rose mauve, labellum deep rose purple with yellow veined throat—May. X C. TITYUS —Petals 7¼" x 2¾", clear rose lilac, labellum rich royal purple with golden orange throat—March. Purpose: An outstanding hybrid in which we expect excellent shape, texture, and color for the spring season.	3" Communities—10 plants 7.50 —20 plants 12.50
150	C. MENDELII —Petals 7¼" x 2¾", white with faint lavender tinge, labellum deep reddish purple with light yellow throat—May. X C. MRS. FREDERICK KNOLLYS alba —Petals 8" x 3", purple with white fringed edge and yellow throat—May. Purpose: To produce a white with possible slight lavender flushed flowers and purple lip for spring. Judging by the parents, interesting variations should result.	3" Communities—10 plants 5.00 —20 plants 8.50
159	C. CREPUSCULE —Petals 7¾" x 2½", glowing crimson purple, frilled ruby purple labellum with golden throat—June. X C. INTERTEXTA —Petals 8¾" x 2½", flower is a deep wine color throughout, richest on the lip—May. Purpose: A good producing late spring hybrid of intense color and excellent texture.	3" Communities—10 plants 5.00 —20 plants 8.50
162	C. MOSSIAE, var. UNIQUE —Petals 8¼" x 3⅛", medium lavender, deep rose striped, unusual solid lip, yellow throat—April. X C. CREPUSCULE —Petals 7¾" x 2½", glowing crimson purple, frilled ruby purple labellum with golden throat—June. Purpose: A spring flower of C. Enid type combining good growth and production with improved color and quality.	3" Communities—10 plants 5.00 —20 plants 8.50
163	C. PRISCILLA alba —Petals 8" x 2½", white, labellum purple with yellow throat—May. X C. MRS. FREDERICK KNOLLYS alba —Petals 8" x 3", white, labellum purple with good yellow throat—March. Purpose: A large flowered white with colored labellum for the winter and spring season.	3" Communities—10 plants 7.50 —20 plants 12.50
166	C. MOSSIAE —Petals 8" x 2¾", medium lavender, purple labellum, ruffled edge with yellow-orange throat—April. X C. ALESSANDRO —Petals 8" x 3", medium lavender, labellum wine purple with rich yellow side lobes—December. Purpose: An extremely heavy producer with excellent growing habits and a spreading season peaking in late winter.	3" Communities—10 plants 5.00 —20 plants 8.50
168	LC. CABAZON —Petals 6½" x 2¾", rose lavender with crimson shading towards the tips, labellum ruby crimson, yellow throat—May. X C. MOSSIAE —Petals 9" x 3", clear mauve, labellum purple with yellow gold throat—April. Purpose: A good quality flower of fine shape with the production and growth of C. Mossiae. Expect spring blooming with some variation.	3" Communities—10 plants 5.00 —20 plants 8.50
170	C. VARUNA —Petals 7¼" x 2½", rose purple, labellum deeper rose purple—August. X C. CREPUSCULE —Petals 7¾" x 2½", glowing crimson purple, frilled ruby-purple labellum with golden throat—June. Purpose: A strong growing, exceptionally dark colored Cattleya for early summer.	3" Communities—10 plants 5.00 —20 plants 8.50
172	C. PRISCILLA alba —Petals 8¼" x 2⅞", pure white tipped with purple, labellum violet purple with yellow throat—May. X C. BRUSSELS alba —Petals 8" x 2¾", pure white, labellum purple with larger yellow area extending into throat—April. Purpose: A good producing, strong growing white with colored lip Cattleya for the winter and spring.	3" Communities—10 plants 7.50 —20 plants 12.50

Cross No.	Parent Description	Price
174	C. MOSSIAE —Petals 8½" x 3", rose-lavender, labellum rose-purple with mauve edging and gold throat—April. X	
	C. H.B. TURNER —Petals 8" x 3½", dark lavender, labellum deep magenta with ruffled edge and rich gold throat—December.	
	Purpose: A cross of high merit in both production and season which extends from February to May.	
		3" Communities—10 plants 5.00 —20 plants 8.50
175	C. ANGELUS —Petals 5¼" x 1¾", pure white, labellum pale yellow—May. X	
	C. ESTELLE alba —Petals 7¾" x 2¾", pure white, labellum white with orange throat—March.	
	Purpose: A medium sized heavy textured white Cattleya for the spring season.	
		3" Communities—10 plants 7.50 —20 plants 12.50
176	C. SAN PASQUAL —Petals 8" x 2⅞", deep magenta, with very large crimson purple lip with gold eyes—June. X	
	C. VARUNA —Petals 8¼" x 3⅛", deep rosy mauve, labellum darker rosy mauve—August.	
	Purpose: An extraordinary strong growing, early summer hybrid producing an abundance of large dark colored flowers.	
		3" Communities—10 plants 5.00 —20 plants 8.50
241	C. APALACHEE —Petals 7" x 2¾", medium lavender, labellum magenta and gold—December. X	
	LC. ATLANTIS —Petals 8½" x 3", deep rose magenta, labellum rich crimson purple—January.	
	Purpose: A dark flowered well-shaped hybrid for the Christmas season. The flower stem and plant vigor should be exceptional.	
		3" Communities—10 plants 5.00 —20 plants 8.50
263	C. NEBO —Petals 6¾" x 2½", medium lavender, labellum magenta with yellow throat—December. X	
	LC. HAIDEE —Petals 7¾" x 3¼", glowing rose purple, labellum intense velvety wine-red—July.	
	Purpose: A good producing, dark colored flower for Thanksgiving through Christmas.	
		3" Communities—10 plants 7.50 —20 plants 12.50
264	C. ALESSANDRO —Petals 7½" x 2¾", medium lavender, labellum and throat magenta—December. X	
	LC. SABINA —Petals 7½" x 3⅛", lilac mauve, labellum solid crimson purple—September.	
	Purpose: A rich colored hybrid for late fall. The introduction of the extremely vigorous growing C. Alessandro should insure vigor and strength.	
		3" Communities—10 plants 5.00 —20 plants 8.50
273	C. TELLUS —Petals 8½" x 2⅞", dark lavender, labellum crimson with a gold throat—December. X	
	LC. ATLANTIS —Petals 7" x 2¾", rose mauve, labellum warm crimson purple—October.	
	Purpose: A vigorous rich colored hybrid for early winter. Flowers should be large and well shaped.	
		3" Communities—10 plants 5.00 —20 plants 8.50
277	C. APALACHEE —Petals 6¾" x 2¾", lavender, round solid magenta labellum with gold throat—December. X	
	LC. BOADICEA —Petals 8¾" x 3⅞", rose-purple, dark ruffled labellum of crimson purple with golden throat—July.	
	Purpose: An attempt to carry the wonderful coloring of the LC. Boadicea parent into the more desirable late fall and early winter season.	
		3" Communities—10 plants 5.00 —20 plants 8.50
281	C. NEBO —Petals 6½" x 2½", lavender, labellum magenta with a generous yellow orange area in the throat—December. X	
	C. H.B. TURNER —Petals 7" x 3", medium lavender, large round labellum of solid crimson and a yellow throat—October.	
	Purpose: An improved larger, darker flowered C. Nebo which to date has been our most consistent Christmas flowering hybrid.	
		3" Communities—10 plants 5.00 —20 plants 8.50
289	C. ESTELLE alba —Petals 7¼" x 2¾", pure white, labellum white with golden yellow throat—January. X	
	C. BARBARA BILLINGSLEY —Petals 7½" x 3", pure white, labellum ruffled white with clear golden throat—January.	
	Purpose: A superior white Cattleya for the December and January period. Estelle alba should impart fine strength and productivity. The seedlings are growing rapidly.	
		3" Communities—10 plants 7.50 —20 plants 12.50

Cross No.	Parent Description	Price
317	C. TELLUS —Petals 7½" x 3", medium rose-lavender, labellum deep magenta with large yellow throat area—January. X LC. ATLANTIS —Petals 8" x 3", dark rose-lavender, labellum solid rich Tyrian purple with small light yellow throat area—April. Purpose: To produce an extremely vigorous productive dark colored hybrid as both parents are easy growers and highly productive. The season should be variable peaking in the winter.	3" Communities—10 plants 5.00 —20 plants 8.50
333	LC. CUESTA —Petals 7" x 2¾", magenta, labellum beautifully ruffled dark crimson with cream yellow throat—February. X C. NEBO —Petals 6¾" x 2½", rose lavender, labellum magenta with yellow orange throat—December. Purpose: Another improved C. Nebo type. LC. Cuesta should darken the entire flower. C. Nebo has a strong affinity for the Christmas season.	3" Communities—10 plants 5.00 —20 plants 8.50
355	C. APALACHEE —Petals 7½" x 2¾", rose lavender, labellum magenta with apricot veined throat—February. X C. TITYUS —Petals 7¼" x 2¾", rose mauve, labellum large solid crimson purple with yellow throat—January. Purpose: A highly productive winter blooming hybrid made with a very fine C. Tityus.	3" Communities—10 plants 5.00 —20 plants 8.50
369	C. VARUNA —Petals 7½" x 2¾", entire flower dark magenta, labellum a shade darker than the rest of the flower X —September. C. PROSPECTOR var. HELEN BUSS —Petals 7¼" x 3¼", rose lavender, labellum crimson with yellow throat area—March. Purpose: To produce a new darker C. Prospector type hybrid, which is noted for its productivity and vigor. The season will be variable peaking in the winter.	3" Communities—10 plants 7.50 —20 plants 12.50

MCLELLAN SEEDLINGS-1½ AND 2¼ INCH POTS

Cross No.	Parent Description	Size	Price
3	C. LILLIAN STEWART —Petals 5¾" x 2½", white labellum, white with deep yellow throat—November. X C. ESTELLE alba —Petals 7" x 2½", white, labellum white with yellow orange throat—November. Purpose: To produce a pure white winter blooming Cattleya with a vigorous growth habit.	1½" 2¼"	\$ 2.00 4.00

Purpose: To produce an extremely vigorous Christmas season hybrid of good flower color and shape on a satisfactory stem.	1½"	1.50
67	C. APALACHEE —Petals 7½" x 2¾", medium lavender, large orange-yellow labellum—December. X (LC. SARGON x C. DIANA) x (LC. SARGON x LC. VALENCIA)—Petals 7½" x 2¾", rich lavender, labellum crimson purple with gold throat—November. Purpose: A vigorous, Christmas blooming hybrid with exceptionally large, dark flowers, yellow throat, excellent shape and good production.	1½"	1.50
70	C. NEBO —Petals 6½" x 2¾", medium lavender, labellum magenta with yellow throat—December. X LC. ELISSA —Petals 7" x 3", rich rose magenta, labellum crimson purple—November. Purpose: An excellent growing, good producing, medium to dark flowered hybrid for the Christmas season.	1½"	1.50
82	(C. DINAH x LC. MATADOR)—Petals 7" x 2½", purple splashed, labellum rich rose purple—August. X C. GENERAL PULTNEY, var. PERRINI —Petals 7½" x 3⅛", medium lavender with rich purple stripe, labellum crimson purple with yellow eyes—January. Purpose: A large sized early Winter flower with a distinct tendency to have well marked striped petals of good contrasting colors.	1½"	1.50
109	C. ESTELLE alba —Petals 7¾" x 2¾", pure white, labellum white with well marked yellow throat—March. X C. BRUSSELS —Petals 7½" x 2½", pure white, labellum purple with orange throat—April. Purpose: An excellent growing, fine producing white with colored lip for the Winter and Spring season.	1½"	2.00
115	LC. ATLANTIS —Petals 8" x 3⅛", dark lavender, labellum crimson purple with yellow—January. X LC. ATLANTIS —Petals 8¼" x 3⅛", rose magenta with darker center stripe, labellum and throat velvety crimson purple—February. Purpose: To produce a superb strain of dark colored, productive hybrids flowering in late Fall and Winter from which to select parents for future breeding.	1½"	2.00
118	LC. CHEVALIER —Petals 8" x 3", dark lavender, labellum crimson purple—April. X LC. ATLANTIS —Petals 8¼" x 3⅛", rose magenta, labellum deep crimson purple—January. Purpose: A distinct improvement over present day Spring blooming hybrids as to color, shape and growing characteristics.	1½"	2.00
133	C. MOSSIAE, var. HAGER —Petals 8½" x 2⅞", medium lavender, labellum ruffled dark Mossiae type—May. X LC. ATLANTIS —Petals 8½" x 3", deep rose magenta, labellum rich crimson purple—January. Purpose: A Spring blooming, well shaped, better colored than average Spring hybrid.	1½"	1.50
144	LC. BRITANNIA —Petals 7¾" x 3", lilac mauve, labellum rich royal purple with old gold throat veining X —April. LC. ATLANTIS —Petals 8" x 3⅛", medium lavender, labellum rich reddish purple—March. Purpose: A large, well formed, dark flower with rich dark labellum having gold veining in the throat. We expect vigorous growth with a variable Spring and Summer flowering season.	1½"	2.00
172	C. PRISCILLA alba —Petals 8¼" x 2⅞", pure white tipped with purple, labellum violet purple with yellow X throat—May. C. BRUSSELS —Petals 8" x 2¾", pure white, labellum purple with larger yellow area extending into throat —April. Purpose: A good producing, strong growing white with colored lip Cattleya for the Winter and Spring.	1½"	2.00
175	C. ANGELUS —Petals 5¼" x 1¾", pure white, labellum pale yellow—May. X C. ESTELLE alba —Petals 7¾" x 2¾", pure white, labellum white with orange throat—March. Purpose: A medium sized heavy textured white Cattleya for the Spring season.	1½"	2.00
263	C. NEBO —Petals 6¾" x 2½", medium lavender, labellum magenta with yellow throat—December. X LC. HAIDEE —Petals 7¾" x 3¼", glowing rose purple, labellum intense velvety wine-red—July. Purpose: A good producing, dark colored flower for Thanksgiving through Christmas.	1½"	2.00

A McLELLAN SEEDLING HOUSE

OTHER UNFLOWERED SEEDLINGS

These are unflowered seedlings of exceptional crosses that we purchased to obtain breeding stock therefrom. We are able to share with our customers those that we have in goodly numbers.

ODONTOGLOSSUM GRANDE

SPECIES

Because of their well-defined blooming period, wealth of bloom, and their definite characteristics, Species are the foundation and educational part of particularly the beginner's collection. Due to their vigorous growth, they can be grown successfully in the home where no greenhouse is available, and thrive at temperatures most comfortable to human beings.

Name	Description	Size	Price
C. BOWRINGIANA	—Native to Guatemala. Light lavender, numerous small flowers, early Fall.	5"	\$ 5.00 - \$10.00
C. GASKELLIANA	—Native to Venezuela. Light to medium lavender, late Spring.	4" 5" 6" 7"	3.00 - 10.00 4.00 - 12.00 7.50 - 18.00 18.00 - 25.00
C. LABIATA	—Native to Brazil. Medium lavender, September, October.	4" 5" 6"	5.00 5.00 - 12.00 7.50 - 15.00
C. LUEDEMANNIANA — (C. Speciosissima)	—Native to Venezuela. Light to medium lavender, large flower, mid-Winter.	4" 5" 6"	5.00 7.50 10.00
C. MOSSIAE —"The Easter Cattleya"	—Native to Venezuela. Light to medium lavender, Spring.	4" 5" 6" 7"	2.00 - 5.00 2.00 - 5.00 7.50 - 18.00 15.00
C. PERCIVALIANA	—Native to Venezuela. Lavender with dark lip, Thanksgiving to Christmas.	4" 5" 6"	2.00 - 10.00 4.00 - 12.00 5.00 - 15.00
C. SCHROEDERAE	—Native to Colombia. Light lavender, orange lip, late Winter.	4" 5"	2.00 - 5.00 5.00
C. TRIANAE	—Native to Colombia. Light to medium lavender, good grower, Winter.	4" 5" 6"	2.00 - 4.00 4.00 - 10.00 5.00 - 12.00

C. WARSCEWICZII (C. Gigas)	—Native to Colombia. Light to medium lavender, darker lip with yellow eyes, Summer.	5" 6"	7.50 - 15.00 10.00
ONCIDIUM varicosum ROGERSII	—Native to Brazil. "Golden Shower". Large sprays of golden yellow flowers in early Fall.	5" 6"	5.00 - 10.00 7.50 - 12.00
ODONTOGLOSSUM GRANDE	—The "Tiger Orchid". Native to Guatemala. For cool room or sheltered patio. Waxy flowers predominantly yellow with brown markings, size of flower—3" to 7", 3 to 10 flowers per stem—late Summer to early Winter.	4" 5"	2.00 - 4.00 5.00 - 7.50

FLOWERING-SIZE PLANTS

Each plant's flowering history is recorded on an accompanying label.

What does this label mean?

The label which is marked: 6/15/49 3 #2 means that three flowers of #2 grade were cut June 15, 1949. A date without a flower record indicates the repotting time.

How we grade:

The width of the flower indicates the grade of the plant:
Up to 5" Spread No. 4
5" to 5¾" No. 3
5¾" to 6½" No. 2
6½" and larger No. 1

OUR PRICES ARE BASED ON THE SIZE AND QUANTITY OF THE BLOOMS, THE SIZE OF THE PLANT, AND THE NUMBER OF LEADS.

From several very fine collections we have purchased, we are selling all varieties with less than 50 plants. Here is a selection to tempt the orchid enthusiast.

NOTE: When two prices are shown opposite a pot size, intermediate prices frequently are available. It will save time in filling your order, if you will state the range of prices within which substitution is acceptable in the event the variety is not available in the pot size and price you prefer.

C. TRIANAE x C. THURGOODIANA	—Medium lavender—Early Spring.	5" 7.50 - 12.00 6" 12.00 - 25.00	
C. TRIMOS (C. Trianae x C. Mossiae)	—Well shaped light to medium lavender flower, darker labellum—Early Spring.	4" 10.00 5" 12.00 6" 25.00 - 30.00	
C. VARUNA (C. Annie J. Lines x C. Intertexta)	—Medium to dark lavender, good grower—Winter.	4" 5.00 - 10.00 5" 10.00 - 15.00 6" 12.00	
BC. VEITCHII (B. Digbyana x C. Mossiae)	—Medium lavender, large flower, large fringed labellum.	4" 5.00 - 10.00 5" 7.50 - 15.00	
LC. WELLINGTON (LC. Wellsiana x C. Trimos)	—Productive light to medium lavender, dark labellum with some striped petals—Early Spring.	4" 5.00 - 7.50 5" 10.00 - 18.00 6" 10.00 - 20.00 7" 25.00 - 40.00	
C. WOLTERSIANA (C. Queen Mary x C. Rajah)	—Light to medium lavender—Early Winter.	4" 5.00 - 7.50 5" 7.50 - 12.00 6" 15.00 - 25.00 7" 18.00 - 30.00	

CYMBIDIUMS

These terrestrial orchids have become very popular for sheltered garden planting particularly along the costal areas of California. A beautiful Cymbidium in bloom is the highlight of any mid-winter garden.

We have chosen these varieties for their ease of growth and abundance of bloom for outdoor or garden culture. Only blooming plants are listed in well established pots in the 6" to 14" size, which is ideal for the average grower.

Pricing is done in the usual manner at \$1.00 to \$10.00 per bulb depending upon the variety and quality of the flower; thus, the price per plant indicates the size and quality.

We expect from 1 to 2 flower spikes each winter in the 6" to 8" pots, 2 to 4 spikes in the 9"-10" pots, and 3 to 8 spikes in the 12"-14" pots, depending upon the variety.

Name — Description	Pot Size	Price
BEATRICE (Parentage unknown) —Tan to brown flowers, labellum reddish brown—Late Winter.	6" - 8" \$ 5.00 - \$27.00 9" - 10" 10.00 - 36.00 12" - 14" 15.00 - 54.00	
BEATRICE SUPERBA —Large tan to brown flowers, large red marked labellum. Very floriferous—Late Winter.	7" - 8" 20.00 - 40.00 9" - 10" 30.00 - 50.00 12" 40.00 - 55.00	
BERYL (Lowianum x Pauwelsii) —Flowers cream to tan in color—Mid-Winter.	8" 9.00 - 18.00 10" 12.00 - 24.00	
BUTTERFLY (insigne x Lowio-grandiflorum) — Flowers cream to tan (very similar to Pauwelsii)—Late Winter.	8" 9.00 - 27.00 9" - 10" 10.00 - 36.00 12" 15.00 - 45.00	
CORONA (Lowianum x Schlegelii) —Tan to brown colored flowers—Mid-Winter.	7" - 8" 7.50 - 27.00 9" 10.00 - 30.00	
CURLEW HYBRIDS —Flowers light yellow shading into green—Mid-Winter.	10" 12.00 - 36.00	
DORIS (insigne x Tracyanum) —Flowers brown to greenish brown—Mid-Winter.	7" - 8" 7.50 - 18.00 9" - 10" 10.00 - 24.00 12" 15.00 - 30.00	
ERICA SANDER (grandiflorum x Pauwelsii) —Flower delicate apple green, labellum green with maroon dots—Late Winter.	8" 25.00 - 50.00 9" - 10" 35.00 - 90.00 12" 55.00 - 110.00	
FINETTA (Lyoth x Susette) —Flowers varying pink, yellow, brown—Mid-Winter.	6" - 8" 15.00 - 35.00 6" - 10" 30.00 - 45.00	
GATTONENSE (Lowianum x Tracyanum) —Flowers green brown—Early Winter.	7" - 8" 7.50 - 27.00 9" 10.00 - 30.00	
INSIGNE HYBRIDS —Flowers delicate light pink, very productive and easy to flower—Mid-Winter.	6" - 8" 5.00 - 27.00 9" - 10" 10.00 - 36.00 12" - 14" 15.00 - 48.00	
LEONIE (Bryan x Falcon) —Flowers yellow to brown. Good size and well-shaped—Mid-Winter.	6" - 8" 15.00 - 35.00 9" - 10" 30.00 - 45.00	
LOWIANUM —Olive green petals and sepals, red crested labellum, easy to grow and flower—Winter.	6" - 8" 5.00 - 18.00 10" 12.00 - 24.00 12" 15.00 - 30.00	

CYMBIDIUM ERICA SANDER

Name — Description	Pot Size	Price
LOWIO-grandiflorum HYBRIDS —Flowers olive green and brown, good size—Winter.	7" - 8" 9" - 10"	\$15.00 - \$40.00 20.00 - 50.00
LOWIANUM HYBRIDS —Flowers green to tan in color—Winter.	7" - 8" 9" - 10" 12" - 14"	7.50 - 27.00 10.00 - 36.00 15.00 - 54.00
MADELEINE (insigne x Pauwelsii)—Flowers pink to brown, very floriferous—Late Winter.	6" - 8"	5.00 - 27.00 10.00 - 36.00
MIRANDA (Alexanderi x Lowio-grandiflorum) — Flowers yellow brown to green—Late Winter.	7" - 8" 9"	7.50 - 27.00 10.00 - 30.00
MOIRA (Pauwelsii x Tracyanum)—Brown green, labellum with brown markings—Winter.	7" - 8" 10"	10.00 - 24.00 15.00 - 30.00
PAUWELSII (insigne x Lowianum)—Cream to tan sepals and petals, labellum spotted brown to maroon, tall arching flower stems bearing up to 35 flowers per stem—Winter to Spring.	6" - 8" 9" - 10" 12" - 14"	5.00 - 27.00 10.00 - 36.00 15.00 - 54.00
TITANIA (roseum x insigne) —Flowers pink to brown—Late Winter.	9" 12"	10.00 - 20.00 15.00 - 30.00
TRACYANUM HYBRIDS —Flowers brown-green—Mid-Winter.	7" - 8" 9" - 10"	7.50 - 27.00 10.00 - 36.00
WOODHAMSIANA (eburneo-Lowianum x Lowianum)—Flowers varying shades from pink to brown—Winter.	7" - 8" 9"	7.50 - 27.00 10.00 - 30.00

MANY PLANTS ARE NOT INCLUDED IN THE FOREGOING LISTS, BUT ADDITIONAL LISTS AND INFORMATION WILL BE FORWARDED GLADLY UPON REQUEST.

The touch of the exotic and the luxurious appeal of the orchid plant make it the unusual, ideal gift for the home of "those who have everything".

CYMBIDIUM TRACYANUM

CARE OF ORCHIDS IN THE HOME

LOCATION: Place the plants in a window but provide protection against any direct **midday** sun, possibly with Venetian blinds.

WATERING: Water once a week with one cup of water for a 5-inch pot, and proportionately more for larger pots. During Summer heat spells, watering can be increased.

TEMPERATURE: Cattleyas like the usual comfortable living, home temperatures.

Odontoglossum do well in the cooler rooms, in the cool conservatory or sheltered porch.

Cymbidiums can stand more cold than any orchid. In the San Francisco area, Cymbidiums flourish in shady or protected gardens, in large pots in protected patios, or in unheated glasshouses.

HUMIDITY: Plants can be set in an ordinary tray or flat bowl, or on wetted gravel or white crushed rock placed in the tray or bowl. This rock helps to give added humidity or the jungle atmosphere by the evaporation of water kept about the rock in the tray or bowl. At least one inch should be allowed between the level of water about the rock, and the bottom of the pot.

Being one of the easiest of plants to care for, Orchids are entirely successful for the home. They take no fertilizers and are unusually clean. Orchids are now within the reach of everyone. The average plant for the home ready to bloom—\$5.00 to \$10.00.

ORCHID MATERIALS AND SUPPLIES

LABELS—White Celluloid

Stick-In Type	(4" x 5/8")
Wired Type	(4" x 5/8")

CRUSHED STONE—White or Gray Marble
